

Making Transplants Affordable - An Initiative by MOHAN Foundation

Pallavi Kumar, Jaya Jairam, Sunil Shroff
MOHAN Foundation, India

"Anudaan – Making Transplants Affordable" is an initiative launched by MOHAN Foundation in 2021 as a mark of its journey towards saving lives since 1997. This initiative aims to provide financial assistance to the economically underprivileged, thus enable access to life-saving transplants. Most transplants take place in private sector hospitals and the prohibitive costs makes them inaccessible to the poor. Since hardly any government hospitals perform transplants, affordable transplants remain elusive to the poor. Anudaan has been providing partial contribution to the transplant cost of individuals and has been working with hospitals to bring down the transplant costs.

It is being supported by philanthropic individuals and corporate houses such as Century Plyboards India Limited, Edelweiss Tokio Life Insurance, Ethos Watch Boutiques and BNP Paribas. MOHAN Foundation also partners with like-minded individuals and organisations such as THPF (Transplants Help the Poor Foundation), TANKER Foundation and MFJCF to name a few to share the transplant costs. We have also been raising funds on Milaap, our Crowdfunding partner. Between March 2023 – June 2023, ten transplant individuals were supported, of which many were children under the age of 10 years. Anudaan aims to touch the lives of these individuals and help them achieve their aspirations.

Anudaan acknowledges below individual contributions for joining hands with MOHAN Foundation's initiative towards making transplants possible to the less affordable.

Mr. Jairam Balakrishnan

Ms. Rekha Kumar

Anudaan received a generous grant from **Mr. Adi Dasika and his wife, Lakshmi** enabling the support towards many more transplants for children from economically underprivileged families. Mr Dasika is the founder and president of Icon Technologies and also a board member of MOHAN USA. He has personally witnessed the problems of patients with end-stage organ failure and the benefits of organ transplantation as his mother-in-law underwent a kidney transplant. This experience inspired the couple to dedicate their retirement towards raising awareness on organ donation. They have helped organize many fundraisers to benefit organ failure patients.

"Through organ donation, one soul's ending becomes another's beginning – it's the ultimate gift of life."

A MOHAN FOUNDATION project

An initiative touching lives...

PARENTS WANT HIM TO BE A
PROFESSOR
MASTER CHETHAN KM
1 yr, Kolar, Karnataka
Liver Transplant on March 7, 2023

MR. MONISING BUNGDON
61 yrs, Chandel, Manipur
Kidney Transplant on April 7, 2023

PARENTS WANT HIM TO BE A
BUSINESSMAN
MASTER ADVIK AMBADGATTI
1 yr, Dharwad, Karnataka
Liver Transplant on March 28, 2023

ASPIRES TO BE A
ENTREPRENEUR
MR. LAIMUJAM PREMJIT SINGH
44 yrs, Imphal, Manipur
Kidney Transplant on March 7, 2023

PARENTS WANT HER TO BE A
DOCTOR
BABY DARSHITA ZORE
1 yr, Buldhana, Maharashtra
Liver Transplant on April 24, 2023

Support this endeavour and enable us to aid many more transplants and aspirations

अनुDAAN
Making Transplants Affordable
