

Transforming Lives: Enabling Organ Transplants for Underprivileged through Crowdfunding

Jaya Jairam

MOHAN Foundation, Mumbai, Maharashtra, India

India - 3rd largest transplanting country in the world

In 2022, 16,041 transplants were carried out in India. Its organ transplants rates are anticipated to surge substantially in the coming years, due to factors such as:

- Rise in lifestyle diseases
- Rise in number of Transplant Centres across India
- Government and NGOs working to strengthen the deceased organ donation program
- Introduction of deceased organ donation in parts of the country that do not have a program

Fig1: India's organ transplantation rates have tripled since 2008 Fig2: Increase in no. of transplant centres
Source: <https://www.transplant-observatory.org/>

An initiative to raise funds for underprivileged patients to enable them to undergo life-saving transplants.

With support from other like-minded NGOs, corporates and philanthropic individuals

Affordable transplants remain elusive to the poor

The number of organ donations / transplantations in public hospitals that offer free / subsidized surgeries, is low. 96% of the Indian population belongs to the lower and middle classes

Transplant costs

- Public hospitals
 - Free / Subsidized
 - Handle < 15% transplants
- Private hospitals
 - Major contributors to transplants
 - Liver / Heart transplant – US\$ 25K - 30K
 - Kidney transplants – US\$ 10K - 12K
- Lack of comprehensive healthcare schemes

Distribution of the Indian population by income

Class category	Annual household income
Upper class	> 36K US\$
Middle class	6K – 36K US\$
Aspirers	1.5K – 6K US\$
Destitutes	< 1.5K US\$

Transplants supported : 2021 - 2023

Age Group

Children (<18 years)	- 33
19 - 40 years	- 12
> 40 years	- 10

21 Female : 34 Male

20 Partner hospitals nationwide

Funds Raised – 144K US\$

- This initiative has enabled MOHAN Foundation to make available the 'Gift of Life' predominantly to children and young individuals so they can go on to lead healthy and productive lives
- Crowd funding is a highly effective way of raising funds for supporting transplants in poor patients, especially in countries that do not have comprehensive healthcare packages and where public healthcare systems lag behind in organ transplantation
- Success of this initiative lies in reaching new donors and demonstrating benefit to patients

Concerts in Aid of Anudaan

Raising funds through Crowdfunding

MOHAN Foundation launched 'Anudaan - making Transplants Affordable' in 2021

- Partially funding transplant surgeries in Private Hospitals
- For financially underprivileged patients
- By leveraging crowdfunding

FUNDRAISING
Through crowdfunding campaigns such as -

1. Music concerts featuring renowned artists
2. Campaigns by school students

IN COLLABORATION WITH

1. Corporates
2. Fine arts societies
3. Member associations
4. Schools
5. Like-Minded NGOs
